Having received several very important improvements viz.:—

Morrison's wonderful little Engine, for cleaning and excavating decayed teeth, preparatory to filling, which does the work with such rapidity and beautiful exactness, that in a very few seconds an otherwise sensitive tooth is prepared for the Gold in a manner unattainable by the disagreeable method of scraping and burning, so well known by those who have experienced the operation.

Also Green's Electric Engine, which took the grand Diploma of Honor at the Vienna Exhibition. The feat of harnessing lightning is fairly done in this neat, efficient, and truly wonderful little machine. By this we manipulate the gold into the most difficult or frail tooth, with the most exquisite exactness; and without danger of fracturing the most delicate enamel. Then, with the same engine, we finish and polish the filling in less than one quarter the time formerly required, and without pain. No patient who has had teeth filled in this manner once, will ever willingly consent to the use of excavators or burr again.

We have also received an immense quantity of the most beautifully carved Artificial Teeth, comprising thousands of different shades and forms, from which with our long practical experience we can match any style or feature, complexion, or expression, with such artistic incenss that detection is impossible.

The Plate we use for the atmospheric pressure is the Whalebone Rubber, the lightest and strongest known.

We have been using Nitrous Oxide Gas for the painless Extraction of Teeth for nearly fourteen years, and have administered over

20,000 Times,

2,140 times in this City alone, since August 1872,

And recommend it as the safest anesthetic known. It is nothing new, as it has been tested by thousands of Dentists, and hundreds of thousands of people.

Persons from the Camp and neighboring Towns, can have their Sets of Teeth made in time to return same day, by making an appointment before hand,

NEW ADVERTISEMENTS

FIGHTING THE CONCEALED POISON Look at the source, not at the symptoms. Remember that symptoms are the evidence of Nature's conflict with disease. They tell us that our animal powers are fighting the concealed poison. Aid and reinforce them with that genial and powerful restorative, Bristol's Sarsaparilla, and the result cannot be doubtful. No disorder, not organic, can resist such an alliance. The enemy is in the veins. There this great detergent will find it, and thence expel it. That done, the cough that indicates consumption, the sores that denote the presence of scrofula, the terrible suffering of body and mind which accompany a diseased stomach, and an unnatural condition of the bowels, disappear. This pure and potent vegetable and antiseptic tonic and alterative cleanses regulates, and invigorates the whole internal organisation, and the cure is complete. By the use of Brist l's Sugar-coated Pills at the same time as the Sarsaparilla, the stomach and bowels will be cleansed and strengthened, and the disease more speedily thrown off. cj..m20

CARLISTS MARCHING ON MADRID.

London 17th Feb. Mr. Gladstone proceeds to Windsor and presents his resignation. The Queen sends for Mr. Disraeli.

London 24th. New cabinet as follows—

Prime Minister—Benj. D'Israeli.
Foreign Affairs—Earl Derby.
Lord Chancellor—Lord Cairns.
Pres. of Council—Duke of Richmond.
Secretary for India—Marquis of Salisbury.
Do. for Colonies—Lord Caernarvon.

Post-Office—Lord J. Manners.

The rumor of the Khedive of Egypt being in difficulties on the Paris Bourse is contradicted.

The Deputies of Alsace and Lorraine protest against annexation to Germany without a Plebiscite, and Wednesday is fixed to discuss the question.

Gibraltar, Feb. 25th.

Numerous arrests have been made at Madrid among the Federal party. The Carlists have entered Tarancon and Villarobledo, and the garrison of Madrid is marching out to fight them. Gerona is so hard pressed that it is expected hourly to surrender to the Carlists.

Serrano has asked his Cabinet to grant him extraordinary powers as Dictator, which will probably be conceded. He is preparing to send 3,000 men to Cuba, with instructions for Captain General Jovellar to take measures to put down the revolution at once.

A treaty is proposed between the Madrid Government and the Carlists, something like the old Convention of Bergara; this causes much disgust in the capital. Bilbao still holds out against 20,000 Carlists, the garrison being commanded by Primo de Rivera. Morriones and Lopez Dominguez with a Government army of 36,000 men are marching to relieve the place, by advice of Gen. Espartero. Gen. Elio, the Carlist leader, had retired into France in conjunction with Dorregaray.

By latest advices the two armies were engaged and the battle will probably have a final result for or against the Carlists.

Dissensions prevail at Madrid. A new party is formed of Pure Republicans under Castelar. The Radicals and Sagastinos are quarrelling, the former claiming all the merit of the late Coup d'Etat under Gen. Pavia.

Serrano seems anxious to bring about a Plebiscite, to decide what form of Government best suits Spain. He finds himself powerless to restore harmony between the Radicals and their opponents. Sagasta leads the reaction. Ruiz is the only Cabinet Minister who opposes the Plebiscite. Serrano's decree restoring capital punishment is published.

The French authorities in Algiers have released all the Communists at Oran, excepting such as were condemned criminals. Contreras and Ferrer offered to decline any money bounty if the French authorities would give them their liberty.

The Spanish squadron had to retire from its position at Portugalete.

The following telegrams are from the *Courrier*.

Berlin, Feb. 15th.—All the deputies from Alsace and Lorraine took their seats to-day in the Reichstag, on the extreme right, seven dressed as clergymen. The military bill passed first reading.

St. Petersburg, 16th.—At the grand banquet yesterday, the Czar, in proposing the health of the Emperor Joseph, said the friendly feeling between Russia, Germany, Austria and England was the best guarantee of the peace of Europe. The Emperor of Austria replied by reciprocating the sentiments expressed by the Czar. His Russian Majesty is going to visit the Queen of England in April, and will call to see the Emperor William at Berlin 'en route.' A conference took place between Count Andrassy and Prince Gortchakoff; nothing has transpired, but there is an uneasy feeling at the German Embassy.

Paris, 17th.—Ledru Rollin is said to have accepted the post of Deputy for Vaucluse. The delegates meet next Sunday. MacMahon returned this morning to Versailles, and held a Cabinet Council. The interview between Baron Arnim, German Minister, and Duc de Decazes resulted in the former expressing himself quite satisfied. M. Batbie had a long conference with Broglie on the Electoral law. Raoul Duval, by the advice of his friends, will take no part in the Gambetta interpellation. In ministerial circles the Emperor of Austria's trip to Russia is interpreted friendly to France. The Duchess of Magenta holds a meeting of journalists to re-establish kitchens for the poor. Rouher has left for London.

NEW CUSTOM-HOUSE AT MONTEVIDEO.

The Finance Committee of the Legislature of Uruguay has handed in a long-winded report on the petition of Pres. Ellauri for enlightement and authorization concerning the new Custom-house contracted for by Don Alejandro Mackinnon in London, out of part of the proceeds of the 1871 loan.

It appears that in August 1868 the Chambers authorized the Government to borrow 400,000$ for the construction of a new Custom-house, and in the following July the plans of Mr. MacKinnon were adopted, he being the Director of Public Works, and he was authorized by Government to borrow 570,000$ in London (say £122.000) at 8 per cent, to defray the cost of the work, with 5 per cent commission for his trouble.

Mr. MacKinnon made a contract with a London firm for 483,665$, being nearly $100,000 under the limit prescribed; the building to be completed by July 21st 1874, under a penalty of £20 a week for delay.

The materials, such as iron roof etc., were sent out and landed at Montevideo, duty-free. The engineers arrived in May and informed the Government, but an embargo was at once laid on the whole enterprise. The Government submitted the contract to the Board of Works, and the latter found two faults with it: first, the specifications were at variance with the original plans; second, the plans sent from London bore only MacKinnon's signature, and the contract had not the Consul's visèe.

The Finance Minister said MacKinnon was authorised to expend $570,000, and the total amount he had deducted from the London loan for the Custom house was only $512,463; but the Minister thought he had no authority to make a contract in London, nor to alter the plans in the least.

The matter was then sent to the Fiscal who reported—"the Government contract with McKinnon was "a scandalous piece of jobbery under "the last Administration, and for "honor of the country ought to be "cancelled." He proceeds, however, to say that, as the engineers and materials are here, and already paid for, the work had better proceed.

The Government resolved to consult the Chambers, and the latter at first objected to offer an opinion, suggesting that the Tribunals should interfere in cases of jobbery or corruption. All this time the engineers are idle, and the Government paying 420,000$ a year for private customs-deposits.

At last the Committee advise that the works be undertaken and the custom-house constructed. It seems the only flaw in the whole proceeding is, that Gomensoro did not call for tenders when McKinnon's plans were accepted. At any rate the present contract would have been a saving of 50,000$ on the proposed outlay of 570,000$, had not the engineers been delayed 10 months at Montevideo uselessly.

MONTEVIDEO.

The new revolution in Entre-Rios is said to be headed by Col. Polonio Velasquez, who has gathered some followers in the forest of Montiel.

The Palmer-Bergara invasion on the Chuy frontier, has subsided for a time, the leaders retreating to Santa Isabel. The police is being strengthened on the frontier.

Mr. Giebert, manager of Liebig's Extractum Carnis factory at Fray Bentos, is dangerously ill. A fire also broke out in the factory, but was extinguished without much damage done. It is hoped Mr. Giebert may recover, but his condition is critical.

H. M. gunvessels Ready and Cracker are at Maldonado for ball-exercise. The latter has been put in 15 days, quarantine, because coming from an Argentine port, Rosario.

The Brazilian squadron goes out to-day, Wednesday, again for ball exercise.

Near Colonia a boat with 6 Argentine deserters from the artillery battalion at Martin Garcia, has been seized.

The new mole at Flores Island for landing quarantine passengers has been commenced.

Major Klinger has been sent with a squadron of cavalry to keep order at Durazno during the new elections for that department.

The enquiry about the murder of Mr. Rucker will be sent to-morrow to the Fiscal. One of the men arrested, named Cesare Chironi, has been set at liberty, these being no evidence against him. It is hoped the 4 principal assassins will be shot, as in Dr. Feliceangeli's case.

The *Jornal de Commercio* gives details of the murder of Mr. Langlois, formerly of the R. Plate. It appears he had for partner one Cervetto Stockmann, and while he was absent at San Paulo the latter got himself photographed with Mrs. Langlois leaning on his shoulder, although Mrs. Langlois says her husband made no objection. A slave named Carneiro says that Stockmann offered him $300 to kill Langlois, as he wanted to marry Mrs. Langlois. Stockmann confesses that he got most of the property and drew $40,000 from Bank in January, also that he told Langlois when dying 'the blow you received was intended for me.' A few days before an attempt had been made to poison Langlois. The case is still on trial.

The Savoie has brought 12 days later from Europe.

The mercantile community is afflicted at the quarantine rupture with B. Ayres.

ROSARIO.

(From our Own Correspondent.)

March 17th.

When Pope Celestine authorized St. Patrick in the year 430 to convert the heathen Irish, and which authorization the good saint amplified into an authority for banishing from the Green Isle all the serpents, dragons, frogs, salamanders, "et id genus omne," how little did he imagine that fourteen and a half centuries later St. Patrick's health would be drunk in the Argentine Republic every seventeenth of March in Otard and Dupuy's 'matchless brandy,' by thousands of his countrymen—I mean by his adopted countrymen, for by all accounts the saint was born in Dumbartonshire, in Scotland. But wherever he was born, he died in Ireland, at the good old age of one hundred and twenty years, as his tomb in Downpatrick testifies. May we all live as long and as well!

"Le Roi est mort," God save the King! It is now no longer a question of "under what King? Bizonian, speak or die?" Bayo rules the Santafecino roast for the next three years, and as the papers all say, the people are weeping—for joy that Irioudo's reign is over; shall we have a decent Government? Almost any thing pretending to be decent will satisfy us. But still, although with somewhat of fear and trembling, we are inclined to believe in Mr. Bayo. We know he is honest; he has shown himself active and energetic; he has no sympathy with felons, he desires to distinguish himself as a good governor, so he ought to organize a respectable administration. His 'tail' are not so trustworthy, and the only thing I fear is that his surroundings will not help him much in his exalted position. It is understood that two of his staunch supporters are to be rewarded with the highest posts in the country. Dr. Salva will be minister, and Colonel Rodriguez, of Rosario, will be Gefe Politico of this Department. The first is Deputy to Congress at present, and did not make much of a mark. They say he is clever but morose, and cannot be called a man of progress. He is also a man chock full of personal antipathies; and although Dr. Johnson pretended to like a good hater, I don't think he would have liked to have seen him Premier of England. Colonel Rodriguez is ambitious, and is a man of progress, laborious and well meaning, but he has not been able as yet to shake himself clear of antiquated ideas. Still I have hopes that he will make a respectable Gefe Politico, for he has toilingly worked himself up to his present position.

It is not yet known who is to be elected Senator to Congress. The Government has not been able to secure a quorum in the Legislative Chambers. Mr. Iriondo is of course anxious to secure this post for himself, but it appears there is some hitch in the affair, and a jump from the Government chair to the Senatorial cushions may not be so easy as was anticipated. Up to the present time the whole delegation of Santa Fe to Congress have been sent by the provincial Government.

We are dull enough in Rosario; no news of any kind, and the daily papers must be awfully pushed to fill up their columns. Mr. Barra, the giant of our editorial corps, is always game for two or three well written articles, but they are on politics, or rather on the presidential election. When this is over, 'Othello's occupation's gone.' Apart from articles on the coming election, which it must be confessed are rather dry reading, the papers are devoid of any interest. They rarely give any kind of intelligence worthy of transcription or translation—no statistics on commerce, agriculture, education, or even on the doings of the Administration and Legislature. There is no pains taken to procure useful information, and consequently, for a correspondent our papers are perfectly useless.

The new Custom-house is finished, and is certainly a creditable structure. The great error was building it on the river's edge, sixty feet below the level of the town. The proper place would have been alongside the railway station, on the town level, and in front of the best anchorage in the river. It was proposed to do this, but "vested interests," that bugbear and destroyer of so many useful ideas, interfered, and the Custom-house was built in a hole where nobody can see it, and every description of cargo that arrives has to be dragged up a steep hill by overworked horses and oxen, when, if common sense had been consulted, the building would have been placed at the top of the 'barranca,' where it would be an ornament to the city, and where by means of steam cranes, as at the Railway, whole cargoes could have been deposited at the level of the streets, with half the cost and trouble of the actual system.

Mr. Vigne has returned from England, and I understand intends working the steam flour-mill at Bernstadt, colony of Roldan.

Mr. Cabral is loading a large vessel in Santa Fe with colony wheat for England. In Rosario there has been no move in that direction as yet. I think that all our wheat will be required for our own consumption this year. There are about fifteen steam flour mills in the province, and they can use up a large quantity of grain. The price too is somewhat too high for shipment to Europe. Early maize is beginning to ripen, but there is very little animation in this article until the late crops be harvested, in the month of May. Maize requires a few frosty nights to season it.

There is no confirmation of the death of the Governor of Rioja. The report I hope is without foundation. The two Richmonds in the field are uncle and nephew. Colonel Gordillo, commanding the national forces, and who has assumed such an equivocal position in hostility against the constituted authorities, is the uncle of the Governor Gordillo, who, by all accounts, is a weak-minded man, hardly fit for his position.

Since the news of the alliance of Alsina and Avellaneda the presidential question has subsided into a delicious quietness. No fears of rows or revolutions. The Alsina people make over their rights to the Avellanadistas, and the votes of the province will be given unanimously to Dr. Avellaneda. It is rather ungrateful, however, of the Rosario people to forget that we owe our Central Argentine Railway to Mr Mitre's Administration.

Yours,
LEO.

B. AIRES BRITISH CHORAL SOCIETY.

The two General Meetings of the Glee Club held on the 10th and 17th inst. have resulted in an alteration in the character of the Club. The season of 1873 having proved so successful, it was advocated by many to widen the limits of the Club's operations. Accordingly, it has been resolved that the Committee shall invite ladies to become members, and take part in the Concerts. The class of music which will be performed will no longer be confined to Glees alone, but will consist also of the higher description of concerted vocal music, secular and sacred, among which latter, selections from Oratorios will form no unimportant feature.

Under these circumstances the title of 'Glee Club' has been considered as no longer appropriate, and the members have therefore confirmed the recommendation of the Committee that the name should be altered to the 'Buenos Ayres British Choral Society,' by which title the former Glee Club will in future be known. We understand that the English Chaplain, the Rev. Dr. Smith, has consented to become Honorary President of the Society, and we congratulate the members on the acquisition of a gentleman so peculiarly qualified to hold that position.

We are glad that the unpretentious efforts which characterised the formation in December, 1872, of the Glee Club have been so eminently successful as to bring into existence an English musical society whose entertainments will, we believe, in every respect outrival those of the defunct Philharmonic.

An association which appeals so directly to the sympathies of all English-speaking nationalities as the British Choral Society does should receive all the support possible from those communities.

The first concert of this season will probably take place in April, and we are requested to say that all gentlemen wishing to become passive members of the society should send in their names as early as possible to Mr. F. Short, the Hon. Sec., or to any member of the committee.

EDITOR'S TABLE.

The news by the Mediterranean steamer Savoie, which, by the way, made a stunning run out from Gibraltar in 20 days, shows that it is 'all up' with the Gladstone Cabinet. The 'people's William' has resigned, and Mr. Disraeli, being at once sent for by the Queen, produced from his pocket a list of a Conservative Cabinet. We give the names (taken from the *Tribuna*, as S.b. O'G. failed us on Wednesday) in another column. The new cabinet comprises all the 'beaux esprits' of the Conservative ranks, and be it said, 'en passant,' exhausts the list of such. We are glad to see our distinguished countryman Lord Cairns on the Woolsack again. Now, Mr. Disraeli, you are well on board the Ship of State, with a fair crew, and the popular gale astern; let us see what you can do! but no more larking, or overboard you go, as sure as a gun, before next Xmass Day! Spain is in a fearful state. The Carlists are carrying everything before them, and their advanced parties are nearing Madrid. Old Serrano asks to be made Dictator. The Alsatian Deputies in the German Parliament (7 of them priests) made a plucky debut. One of them, before he had well taken his seat, put a motion on the table to the effect that the annexation of Alsace and Lorraine to Germany was done by violence and without the wishes of the people being consulted, which the honourable Deputy proposed should be done by a Plebiscite. The Czar intends to visit Queen Victoria in April, and will drop into Berlin on his way, to say 'how do' to his uncle William.

The rain on Wednesday night was terrific everywhere. The whole country is drowned out. Finer and steadier rain could not be seen even in Ireland, the wettest and greenest spot under the sun.

We received the following interesting news from Ajo yesterday. The Far South is looking up a little:

"While our 'bete noire,' the 'seca,' still continues his nearly unbroken reign, the camps themselves are much improved. There is now an abundance of pasture. Sheep are in fair condition; and cattle, though only improving in this, are fat in the neighboring districts. Don Pedro Luro's is at present the only saladero working at General Lavalle. The elections passed very quietly in the above mentioned town; Dr. Alsina seems to be the favorite candidate. The Rev. M. P. Ferguson, of Chascomus, held divine service at Messrs. Gibson's estancia, 'Los Ingleses,' yesterday, the 14th inst. A congregation of nearly fifty, and three baptisms, give a pretty correct idea of our English population here."

There was a two hours' fizzle at the Flores station yesterday morning after breakfast, the result being that a lot of eminent, leading and well known daily bread men did not reach their offices till long behind their usual time. The 9.30 up train was the culprit. Somewhere about Merlo the couplings of one of the cars broke, and it took twenty minutes to get 'en route' again. Then, as the train approached Flores, and all the business men on the platform were lowering their umbrellas for a scramble for seats, off the line went the tender at the shunting points, and it took two hours, the telegraph, two engines from town and an army of peons to get it back again. Many passengers, tired of waiting, resigned themselves to the slow torture of the tramway, and have not recovered from the effects yet.

Morning passengers to town yesterday by the Lacrosse tramway were horrified and sickened at seeing two large pools of blood at the corner of Calles Piedad and Suipacha. Some murder or stabbing case, no doubt. The papers are now teeming with such crimes, which, if allowed to go on with impunity much longer, will totally demoralize Buenos Ayres society.

We perceive that the Buenos Ayres Glee Club has changed its name. See particulars in another column.

Yesterday, St. Joseph's Day, was observed as a church holiday, and the city churches had large congregations. The ceremonies at Flores were sadly interfered with by the miserable weather.

What is that which is taken from you before you see it? Your portrait.

When is butter like some children? When it is made into little Pats.

When is a lady's cheek not a cheek? When it's a little pale (pail).

What is it we can't do very well without, yet we turn it out? The gas.

Some of our contemporaries announced yesterday morning that the childish quarantine quarrel between this port and the Mount had been arranged on Wednesday evening, and that both ports would be thrown open simultaneously to-day or to-morrow. Many doubted the good news, the more so as it was known that the Montevideans showed a sneaking partiality to keep on a still quarantine. Later in the day it was said that the decrees opening both ports, with 2 days quarantine, will be published to-day here and at Montevideo. Amen. This quarantine scandal will get us both laughed at and abused in England and over Europe, and just now neither city (particularly the Mount) can at all afford to incur any odium in London. We predicted a few days ago that our cherished sister city would be the first to cry "Hold, enough!" when President Sarmiento applied the thumbscrews to her delicate knuckles. However, "all's well that ends well". The 2 days quarantine is ineffable humbug.

A mad mastiff created awful fun and funk in a square of Calle Chacabuco a few days back. He went snapping about, and everyone ran in doors for shelter. Shutters were put up, doors bolted, and all ran for the altos and azoteas, while 'Milord' strolled up and down seeking whom he might devour. At last two 'Blues' appeared round the corner, drew their whingers, and advanced steadily on the foe, who waited till the policemen made a few abortive cuts at him; and then, rattling his teeth with the sound of a dozen rat traps, the noble beast charged. Away went the 'peelers' for dear life, the neighbours rushing to their windows laughing and shouting 'chupale,' while the constables held on for safety at the top of their speed. At last the maniac dog stopped to laugh also, and the policemen escaped a hydrophobiacal grave.

The National Tramway is pulling up a bit. It carried 114,392 passengers during the month of February.

The *Tribuna* of Montevideo states that one of the new ironclads for the Argentine navy, now on their way out from Europe, will be commanded by Captain Semmes, formerly commander of the famous Alabama, which was the indirect means of transferring several millions from our pockets to those of our American Cousins. If our memory serves us right, Captain Semmes has been 'in glory' for several years past, and will never burn another merchantman, nor pour a broadside into a foe. We may be wrong, however.

Professor Belly's lecture at the Nat. College on cutting a ship canal through Central America was attended by many scientific and literary notabilities; but the general public here have little stomach for such subjects, even when the lecturer is a Belly.

Don't laugh. The *Boletin Oficial* of yesterday contains a decree signed by the President of the Republic and *all* his Ministers; and what do our readers imagine it had reference to?—The purchase of 9,000 pairs of pegged boots at $50 m|c. each, from a Mr John Videla, for the army!!! Different peoples have different opinions and customs. If we were in Turkey we would have to do as the turkeys do; but that the President and Cabinet Ministers should have to look after soldiers' boots is a striking proof of the elaborate safeguards that surround the Argentine Constitution. We wonder are the Ministers good judges of shoe leather? Fifty dollars a pair for good boots is dog cheap. We usually pay $180 m|c. per pair, yet a few days hunting after news is sufficient to grind the soles off them.

A misanthropical poet sings:—

Oh, ever thus from childhood's hour
I've seen my fondest fancies spoiled;
I never grew a cauliflower
But, soon as 'twas full blown, 'twas boiled;
I never reared a terrier pup,
To greet my footsteps in the passage,
But just when I had brought him up
To love me—he was turned to sausage.

Marker, score a few for the *Tribuna* which licked the head off the whole of us yesterday morning, and gained a sweeping editorial victory by publishing the names of the new English Ministry. Go it while you're young Mr. Dimet! Stand—by O'Gorman, we'll never forgive you as long as you live, be the same more or less!—and, indeed, we dont care which it is.

Mr. Rogers, the energetic contractor for the Fifth River Railway has just been paid the tidy little sum of $8,000 pats. by the National Government on account of the work done.

The Supreme Court has let out Colonel Vera of Rioja, who was clapped into quod six months ago on a dirty charge of opening correspondence not meant for him.

H M Ships Cracker and Ready are now at Maldonado, for gun practice. Nice cool quarters this weather.

Amongst the new appointments in the Post Office Department we find two English names, Mr. Henry Spalding to be postmaster at San Isidro, and Mr. John Trepp to be ditto at 9 de Julio. Mr. Charlie Parolo has been named Inspector of the new Post Office and Capitania—an 'Inspector of Public Buildings' in fact.

Dr. Avellaneda's supporters intend going in for a mass meeting on Sunday next, and the Colon Theatre has been hired for the purpose.

The Provincial Legislature gets a good deal of abuse, and deserves it all, and as much more. It won't meet and despatch the business of the province. A sleepy Governor creates somniferous Deputies. No quorum at the last meeting.

The Savoie has more new furniture on board for the Provincial Bank. All the profits will go in sofas, tables and chairs.

Oh Flores! The Municipality of this unequalled spot is in the same ditch as its grandpapa in Buenos Ayres, viz, the ditch of Debt, and for a similar bill. It owes 48,000 m|c for lighting 'the village' with kerosene, and it cannot, or will not pay. The town is in darkness every night; and goodness knows what eminent merchant may be waylaid, drubbed and robbed some fine evening on his way to the bosom of his family, after a hard day's work? These are dark days.

The Roman Government has made or is about to make a proposal to those European powers that send representatives to the Vatican as well as the Quirinal, viz—that all Ministers sent to the Holy See should be Catholic clergymen. It is expected that such a measure would put an end to the 'little unpleasantnesses' that occasionally arise through Italy's Spiritual and Temporal Sovereigns residing in such close proximity to each other.

The cleaning of the Riachuelo will be commenced next week. Hooray!

A nice young man was taken to the Head Police Office on Wednesday charged with half a dozen homicides, as many robberies, thrice as many stabbing assaults, and perpetual drunkenness!! A pleasant sort of a customer to meet on a dark night these kerosene times.

Letters from Catamarca state that that go-ahead province was lately shaken to its foundations by a mild little earthquake. Nobody hurt; but no goosequill could do justice to the effect of the fright on the inhabitants. The harlequinade in a Drury Lane pantomime was nothing to it.

Unpleasant news from up the river. Cholera very bad in Gualeguaychu, and a blaze at Liebig's Meat Factory in Fray Bentos. No harm done by the fire; but Gualeguaychu is losing 3 or 4 souls daily by the disease.

The auction sale of the carpenter's shop in Calle Cuyo, No. 29, was postponed yesterday in consequence of the rain. It will be knocked down on the 24th inst.

Our Spanish colleague says that the Italian Government has applied to the National Government for the extradition of some famous criminals who escaped lately from the Italian jails, came out here, and are now located as servants in respectable families in this city. This is an unpleasant business, particularly for the families.

A certain literary gentleman, wishing to be undisturbed one day, instructed his servant to admit no one, and if any one inquired for him to give him an "equivocal answer." Night came, and the gentleman proceeded to interrogate Pat as to the callers. "Did any one call?" "Yes, sir, one jintleman." "What did he say?" "He axed was yer honour in." "Well, what did you tell him?" "Sure, I gev him a quivveikle answer, jist." "How was that?" "I axed him if his grandmother was a monkey."

ON 'CHANGE.

March 19th, 1874.

Nat. Bonds	78
Cedulas	85½
Ounces	400
Sovs	122½
Pats	25

Business continues dull, a season of general apathy seems to have set in though a slight improvement is observable in the money market, for in the face of various damaging rumours first class bills are in demand at ⅜ to 1 per cent. per month. In Cedulas the sales were as follows—

For cash	10,000	85½
3 st inst.	20,000	85½
do	130,000	85½
30th April	15,000	85⅝

Exchange nothing done on Europe, the rate on Montevideo continues ¾ premium.

Discounts for first class bills easier, 40,000 pats. advanced to day on Cedulas at ½ per cent. valuation 75. The Provincial Bank have not yet decided to make advances on this security, although it is understood that bona fide applications from holders distinguished from speculators will be granted.

Mr. Baya the well-known broker, was the party to whom the Municipality gave a cheque on the Argentine Bank last Saturday, in payment of a bill due on the preceding day; on presenting the cheque the answer was "no funds." On Monday the cheque was protested against Mr. Nazar and Mr. Llorente as signers, but the following day the cheque and expenses were paid by the Corporation; the amount was about $ 9,000 m|c.

Mr. Nazar's ram auction had to be postponed to-day in consequence of the rain. It will come off on the 26th.

The numerous applications for discount at the Provincial Bank have attracted attention in certain quarters. It appears that some merchants are in the habit of making frequent discounts and availing to the utmost of the facilities granted by the Bank without ever depositing or holding any reserve at the same establishment; in fact, as much as possible is taken and no hint allowed even for a day to remain in account current. It may safely be said that no respectable house has ever applied without obtaining relief, and yet how few of these allow the Bank the benefit of their spare balances. In Europe such a course would be, to say the least, unusual. In many cases it is supposed that the amount discounted is at once transferred to one or other private banks, who from caprice or character accumulate reserves, to the general detriment whereas if the amount was merely transferred at the Provincial Bank treasury from the discount department to the mercantile deposit account, the same sum, would from not being withdrawn, accommodate more applicants.

At the General Meeting of shareholders of the Old Gas Company on Wednesday evening, a report embodying all the recent incidents with the Municipality was read, and the following resolution adopted unanimously:—"The conduct of the Board of Directors in the dispute with the Municipality is hereby approved, and the Directors are authorised to take any and every further step that many appear to them necessary for the interests of the Company." Ten thousand shares belonging to foreign shareholders were represented at the meeting.

Mr. Ebbeke sold Mr. Mendez's house in Calle Maipu 27½ by 71 with mérito in favor, to-day for $2,200,000, being equal to 1,260 m|c per square vara.

The auction of a printing-office by Messrs. Bullrich & Co. to-day was attended by a large number of the trade. The type and cases were quite new, bearing the well-known brand of R. Hoe, New York. The press was a hand-some French machine printing a paper the size of the *Tribuna*, in excellent order. The prices obtained were:—

1600 lbs. type from 3 to 4 $ m|c per lb.
30 donkeys, quite new 28 m|c.
40 pair cases at 40 to 50 m|c. per pair.
double imposing-table iron 750 m|c.
press 26,000 m|c.

The types and donkeys were bought by Rossi Montarcm, Kidd, Anzon, Estrada and Betuni The press was put up at 15,000 m|c. and after some competition knocked to Sor. Ricardi for 26,000 m|c. The office did not seem to have had six months' use, and the stock-in-trade realized barely 30 per cent. of the first cost.

The rain to-day of course stopped everything in the plazas; nothing but mud out there; the state of these pazzas is very shocking and speaks sad facts. 20 years have rolled over and the Once is the same to-day as it was then; 17 years have elapsed since the removal of the plaza Concepcion to the present South market, and yet what improvement is there? Everything Municipal or public in this town is in the same wretched plight; any improvement made is done by individuals. Step from the Plazas and survey the whole country the same sad fact is stamped on everything ten inches of mud in both plazas. Yesterday a the Once a bullock cart was tumbled at the corner of the market, and ramways stopped for hours; merchants and brokers must know what sort of a rut, hole, or pit time it takes to tumble a bullock cart with 350 ar. in it.

On tolerably good authority we hear that a new station on the Western Railway is about to be put up in front of Mr. Riestra's quinta: this will be a convenience, as there is a very large population springing up about the o

The steady fall in the Deuda Interna in Montevideo does not escape notice here. The business for the present holders is said to be most ruinous; and yet what fortunes have been made in one or two years in this debt? We heard of an English gentleman who came out to the Plate for a while, went in heavily into the Montevidean stocks, and netted over £60,000 sterling, and then returned to England; rather a brilliant business, but he spoiled everything by telling the people in Liverpool too much about what was going on out here. The whole affair got so talked of that a well known party came out quietly on a special commission; he arrived in time to catch the crisis and a few days or weeks quarantine; his opinions on River Plate must one can well be imagined, and at hongo on his return to England there was nothing published in the papers, strange the River Plate people at home know well what to read.

[illegible] of the Feja or French tile market is [illegible] rejas like pine, have been altogether [illegible] A cargo sold at 48—costs 54 to put [illegible] Plate, and so on.

The scarcity of good regular trade bills is beginning to be complained of. It would seem that with the Nat. Bank discounting, say 600,000 pats per week, and the Provincial Bank close on two millions of pats, all the regular trade paper of this market is absorbed by the two banks. The result is that the other banks are limited to exchange, advances on stocks, and the other classes of operations which do not strictly come under the first category. We have it on the best authority that the National Bank directors purpose reducing the rate of interest, in order to invite the best trade paper to their bank. The Nat. Treasury has also reduced its rate, and but for the large amounts of accommodation paper in the market the private banks would also reduce their rates; but last year's over trading and land speculations have flooded the market with a description of paper in former years unknown. Moreover the Cedula stock is a new demand for money, and hence it is that many people doubt even the power of the new state banks and the treasury to cheapen money in the open market; for the light seems to break upon us all now that there is really not capital enough in the country to carry on the business we were doing. The drain of gold to Europe points to the severe restriction of our currency; the Nova took £225,000stg. from this port, which is one of the heaviest shipments we remember; and now the question is how much will the Ebro take? Thus we find the words of the *Times* city editor prove but too true, that all the gold leaving England for Buenos Ayres on account of the City Improvements Loan would be back again in the Bank of England before the end of the year. The country will doubtless have paid off a large sum on account of its indebtedness; but where, may we ask, would we all be now had it not been for the 2 million loan? yet the objects for which that loan was raised must be carried out, and how? Any broker can answer—by paper money! as ⅔ths of the sum have to be paid away for local labour.

It is really impossible to define the losses caused by the present outrageous dispute between the Argentine and Montevidean Governments, and the continued shutting of both ports. No man that knew anything of the two markets, and their immense transactions, could have ever supposed that things could have come to such a pass. It will read in Europe as if the public affairs of the River Plate are in the hands of a pack of school boys. Why, the gas and municipality outrage was a mere flea bite to this port business. What next is the question? Some terribly violent measure must be impending of which the present troubles are but mere precursory symptoms and there are many who believe this, and are taking in sail just as fast as affairs will allow. The s.s Rubens cleared yesterday; she was to fill up in Montevideo, part of her cargo is waiting there, but there it may wait for all these governments care; yet innocent third parties have to suffer.

The last story current about the port business is that young Mr. Mitre as Oriental Consul, having received instructions from his government sent a note to the Argentine Government demanding a reply; the Argentine Government declined to receive the consul's note on the plea that the Government was dealing direct with the Montevidean Government itself. Mr. Mitre telegraphed down this answer; back came a message denying in toto the Argentine minister's statement or that the Montevidean Government was in manner whatever dealing direct with the Arg Government, and ordering him to again present his note; Mr. Mitre again sent in his note, and we hear that the Argentine Minister has sent back a reply too stiff for even the telegraph wires to carry down. May we ask how much longer is the whole trade and commerce of the Plate to be at the mercy of such childs play.

The question of advancing on Cedulas by the Provincial Bank in the shape of hypothecated loans has come to what may be termed a dead lock, owing to the legal opinion of some of the Board that no summary sale of a hypothecated security stands, without first an order from the Court. The matter is a most serious one, and it is just as well that it should be ventilated, for at some of the private banks where money is advanced on stocks a large memorandum or note, as long as a bond and mortgage, has to be signed by the borrower. As it must interest the market we shall publish one of these hypothecary notes giving full power to the lender to sell the stock in default of payment, and this is the custom in almost every money market, as it has been here; but a doubt as to the power of the lender to sell has been raised, and it is most desirable that that doubt should be settled. We suppose, however, like the privilege question of the Provincial Bank over even the Mortgage Bank, the matter will be just discussed sufficiently to create a want of confidence and then left in abeyance. The Bolsa Syndicate is much to blame for all this; that board should either regulate such questions itself or by means of representations to the Courts, Legislature or Government; bring about the adoption of certain fixed rules that merchants and bankers can go by. If, as is now stated, the holder of hypothecated securities has no power to sell without an order from the court, then the door is left open to litigation, which will defeat business customs. It looks as if lawyers have far too much to do with business in the Plate. Business men should decide business questions, and not lawyers, who know as little about a call loan on stock, as they do of vindicating the character of our judicature when such cases as the Gas and the Municipality arise. If the holder of stock cannot borrow money on the stock and vest in the lender the power to sell in case of non-payment without a special order from the court, then, query. If the holder of Cedulas, when prices go up, can, without a special order from the judge, order his broker to sell same on time or for cash?

The steamer Venezia, for Asuncion, is posted to sail to morrow, but, owing to the bad weather, it is doubtful if she will get away. The trade with the rivers is now very active. On some days we have as many as five steamers, in from Rosario. This shows trade.

The sale of a fine English quinta in Belgrano is spoken of at reserve price. Quinta property, though most desirable, is very difficult to sell. People want nice quintas to live in, but few have the money to pay for them. Moreover, the cost of living in Buenos Ayres is so very high that very few can afford the expense of two establishments.

All the land brokers report plenty of business; they say that not a day passes without a sale. This new kind of trade is a species of retail land business, which really amounts to nothing, so long as the purchasers do not go out and settle on their new farms and chacras. People in a small way pay a few hundred dollars a month and secure a bit of property. The bearing of this business is how much does it subtract from the savings deposited in the banks. We hear that it reaches millions. Could a plain fair list be made out of all the lands offering for sale in this market, it would open people's eyes to what is going on in this branch. As for Montevideo, to judge by the papers, the whole place is for sale but some people have got terribly caught in there by going too heavily into fomento, quintas, and pavashes. The losses are worse than here.

One of our colleagues says the Ebro brings out £300,000 stg., and that the Boyne will bring out £ 00,000, making in all ½ a million. It seems doubtful that so much specie should come out so soon, and can only be accounted for by supposing that Messrs. Baring have made advances on the calls to be made on account of the loan.

The fine steamer Colina is posted to sail to-morrow; we doubt, however, if she will get away owing to the bad weather.

The next month's Hamburg steamer, Captain Kier, will we hear take home a whole colony of Germans who go for a short trip to Europe amongst others Mr. C Pfeiffer and family, Mr. Bunge and family, Mr. Beckhaus and family, Mr. Clausen &c. These Hamburg steamers are doing very well and increasing the relations of this country with Fatherland.

Elections

Here, as in England, the people are engaged in the exercise of that first most noble privilege of a free nation. On both sides of the Atlantic the great error seems to be the depression of physical force. Brandy, and not reasoners, should be used. The reason is very clear: voting up tolls, not breaking them, was the day; therefore invite your tranquil foe, to vote yourself, and remember
